PROJECT DESCRIPTION

PINE MEADOWS SEWER IMPROVEMENTS

Pine Meadow sewer improvements provide approximately 1400 linear feet of ductile iron sanitary sewer line upgrade from the east side of Northside Parkway approximately 600 feet south of West Paces Ferry Road to the Nancy Creek Interceptor at the intersection of West Paces Ferry Road and Paces Ferry Road. The existing sewer line is primarily 12" in diameter although it downsizes to a 10" line under Interstate 75. This existing sewer line also makes some severe turns and has been a continual maintenance problem because of numerous grease clogs downstream from the fast food restaurants on Northside Parkway. The new line will be 24" in diameter and much of it will be jack and bored. Jack and bore sections include the portions under Northside Parkway, under Southtrust Bank and McDonald's drive-thru, under Interstate 75, and under the entrance drive for the Hardin Company. This line will be able to serve this area through a projected 50-year growth.
